

## Petit Collage animal alphabet poster

*Animal Alphabet 18 x 24 poster. 3 color screen print*

I first ran into San Francisco based Lorena Siminovich's work at a local store that carries modern goods a few years ago. It was the Elephant collage seen on [this page](#) that caught my eye. Since then she has released a small zoo of colorful collages, posters and notecards.

The poster seen above is the latest addition to her collection. Check out that chocolate elephant! He's hanging out with his mysterious friend that starts with a letter "i" and drinking some yummy camel leg. Lots of Fun!

You can see this poster and the rest of the collection at Lorena's website: [Petit Collage](#).
